 Do not engage in stressful or emotional conversations that may be distracting. Make people you are talking with aware you are driving and suspend conversations that have the potential to divert

- Use your device to call for help. Dial a local emergency number in the case of fire, traffic accident, or medical emergencies.
- accident, a crime in progress, or a serious emergency where lives are in danger, call a local emergency number. Call roadside assistance or a special, non-emergency assistance
- no serious hazard, a broken traffic signal, a minor traffic accident where no one appears injured, or a vehicle you know to be stolen call roadside assistance or another special, non-emergency

Proper care and use of your mobile device

- the device with a towel and take it to a service centre.
- your manufacturer's warranty.

Do not use or store your device in dusty, dirty areas

If your device falls, it can be damaged

Warning: Prevent electric shock, fire, and explosion

Do not use damaged power cords or plugs, or loose electrical

Do not touch the power cord with wet hands, or disconnect the charger by pulling on the cord

Do not bend or damage the power cord

Safety precautions

Do not use your device while charging or touch your device with

Do not short-circuit the charger or the battery

Do not drop or cause an impact to the charger or the battery

Do not charge the battery with chargers that are not approved by

Do not use your device during a thunderstorm

Your device may malfunction and your risk of electric shock is

Do not handle a damaged or leaking Lithium Ion (Li-Ion) battery For safe disposal of your Li-lon batteries, contact your nearest

Handle and dispose of batteries and chargers with care

- Use only Samsung-approved batteries and chargers specifically designed for your device. Incompatible batteries and chargers can cause serious injuries or damage to your device.
- Never dispose of batteries or devices in a fire. Follow all loca regulations when disposing of used batteries or devices.

- Never place batteries or devices on or in heating devices, such as
- Never crush or puncture the battery. Avoid exposing the battery to high external pressure, which can lead to an internal short circuit and overheating.

Protect the device, batteries, and chargers from damage

- Avoid exposing your device and batteries to very cold or very hot temperatures
- Extreme temperatures can cause the deformation of the device and reduce the charging capacity and life of your device and batteries.
- Prevent batteries from contacting metal objects, as this can create a connection between the + and – terminals of your batteries and lead to temporary or permanent battery damage.
- · Never use a damaged charger or battery.

Caution: Follow all safety warnings and regulations when using your device in restricted areas

Turn off your device where prohibited

Comply with all regulations that restrict the use of a mobile device in

Do not use your device near other electronic devices

Most electronic devices use radio frequency signals. Your device may interfere with other electronic device

Avoid using your device within a 15 cm range of a pacemaker if possible, as your device can interfere with the pacemaker.

- · If you must use your device, keep at least 15 cm away from the
- To minimise the possible interference with a pacemaker, use your device on the opposite side of your body from the pacemake

Do not use your device in a hospital or near medical equipm that can be interfered with by radio frequency

If you personally use any medical equipment, contact the manufacturer of the equipment to ensure the safety of your equipment from radio frequency.

If you are using a hearing aid, contact the manufacturer for information about radio interference

Some hearing aids may be interfered with by the radio frequency of your device. Contact the manufacturer to ensure the safety of you

Turn off the device in potentially explosive environments

- · Turn off your device in potentially explosive environments instead of Always comply with regulations, instructions and signs in potentially
- Do not use your device at refuelling points (service stations), near
- fuels or chemicals, and at blasting areas.

 Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the device, its parts, or accessories

Turn off your device when in an aircraft

Using your device in an aircraft is illegal. Your device may interfere with the electronic navigation instruments of the aircraft.

Electronic devices in a motor vehicle may malfunction due to the radio frequency of your device

Electronic devices in your car may malfunction due to radio frequency of your device. Contact the manufacturer for more information.

Comply with all safety warnings and regulations regarding mobile device usage while operating a vehicle

While driving, safely operating the vehicle is your first responsibility. Never use your mobile device while driving, if it is prohibited by law. For your safety and the safety of others, practice good common sense and remember the following tips:

- Use a hands-free device
- Get to know your device and its convenience features, such as speed dial and redial. These features help you reduce the time needed to place or receive calls on your mobile device.
- Position your device within easy reach. Be able to access your wireless device without removing your eyes from the road. If you receive an incoming call at an inconvenient time, let your voice mail answer it for you.
- Let the person you are speaking with know you are driving Suspend calls in heavy traffic or hazardous weather conditions Rain, sleet, snow, ice, and heavy traffic can be hazardous.
- Do not take notes or look up phone numbers. Jotting down a "to do" list or flipping through your address book takes attention away from your primary responsibility of driving safely.
- Dial sensibly and assess the traffic. Place calls when you are not moving or before pulling into traffic. Try to plan calls when your car will be stationary. If you need to make a call, dial only a few numbers, check the road and your mirrors, then continue

your attention from the road.

- Use your device to help others in emergencies. If you see an auto
- number when necessary. If you see a broken-down vehicle posing

Keep your device dry

- Humidity and all types of liquids may damage device parts or electronic circuits.
- Do not turn on your device if it is wet. If your device is already on, turn it off and remove the battery immediately (if the device will not turn off or you cannot remove the battery, leave it as-is). Then, dry
- · Liquids will change the colour of the label that indicates water damage inside the device. Water damage to your device can void

Dust can cause your device to malfunction

Do not store your device on slopes

Do not store your device in hot or cold areas. Use your device at -20 °C to 50 °C · Your device can explode if left inside a closed vehicle, as the inside

- temperature can reach up to 80 °C.
- Do not expose your device to direct sunlight for extended periods of time (such as on the dashboard of a car)
- Store the battery at 0 °C to 40 °C.

Do not store your device with such metal objects as coins, keys and necklaces

- Your device may become deformed or malfunction.
- · If the battery terminals are in contact with metal objects, it may

Do not store your device near magnetic fields Your device may malfunction or the battery may discharge from

- exposure to magnetic fields.
- Magnetic stripe cards, including credit cards, phone cards, passbooks, and boarding passes, may be damaged by magnetic passes.
- Do not use carrying cases or accessories with magnetic closures or allow your device to come in contact with magnetic fields for extended periods of time.

Do not store your device near or in heaters, microwaves, hot cooking equipment, or high pressure containers

- · The battery may leak.
- · Your device may overheat and cause a fire

Do not drop your device or cause impacts to your device

- The screen of your device may be damaged.
- · If bent or deformed, your device may be damaged or parts may If your device has a camera flash or light, do not use a flash

close to the eyes of people or pets Using a flash close to the eyes may cause temporary loss of vision or

Use caution when exposed to flashing lights

- While using your device, leave some lights on in the room and do not hold the screen too close to your eyes.
- Seizures or blackouts can occur when you are exposed to flashing lights while watching videos or playing Flash-based games for extended periods. If you feel any discomfort, stop using the device

Reduce the risk of repetitive motion injuries

When you repetitively perform actions, such as pressing keys, drawing characters on a touch screen with your fingers, or playing games, you may experience occasional discomfort in your hands, neck, shoulders, or other parts of your body. When using your device for extended periods, hold the device with a relaxed grip, press the keys lightly, and take frequent breaks. If you continue to have discomfort during or after such use, stop use and see a physician.

Ensure maximum battery and charger life

- · Avoid charging batteries for more than a week, as overcharging may shorten battery life.
- Over time, unused batteries will discharge and must be recharged
- · Disconnect chargers from power sources when not in use Use batteries only for their intended purposes.
- Use manufacturer-approved batteries, chargers, accessories

and supplies Using generic batteries or chargers may shorten the life of your

- device or cause the device to malfunction Samsung cannot be responsible for the user's safety when using accessories or supplies that are not approved by Samsung.
- Do not bite or suck on the device or the battery

· Doing so may damage the device or cause explosion

If children use the device, make sure that they use the device.

When speaking on the device:

- · Hold the device upright, as you would with a traditional phone
- Speak directly into the mouthpiece.
- Avoid contact with your device's internal antenna. Touching the antenna may reduce the call quality or cause the device to transmit more radio frequency than necessary.

Protect your hearing and ears when using a headset

- · Excessive exposure to loud sounds can cau hearing damage. Exposure to loud sounds while driving may distract
- your attention and cause an accident. Always turn the volume down before plugging the earphones into an audio source and use only the minimum volume setting necessary to hear your
- conversation or music In dry environments, static electricity can build up in the headset. Avoid using headsets in dry environments or touch a metal object to discharge static electricity before connecting a headset to the

Use caution when using the device while walking or moving

Always be aware of your surroundings to avoid injury to yourself or

Do not carry your device in your back pockets or around your

You can be injured or damage the device if you fall

Do not disassemble, modify, or repair your device

- Any changes or modifications to your device can void your manufacturer's warranty. For service, take your device to a Samsung Service Centre
- Do not disassemble or puncture the battery, as this can cause explosion or fire.

Do not paint or put stickers on your device

Paint and stickers can clog moving parts and prevent proper operation. If you are allergic to paint or metal parts of the product, you may experience itching, eczema, or swelling of the skin. When this happens, stop using the product and consult your physician.

When cleaning your device:

· Do not use chemicals or detergents.

- Wipe your device or charger with a towel or a rubber.
- · Clean the terminals of the battery with a cotton ball or a towel
- Do not use the device if the screen is cracked or broken

Broken glass or acrylic could cause injury to your hands and face Take the device to a Samsung Service Centre to have it repaired Do not use the device for anything other than its intended use

Avoid disturbing others when using the device in public

Do not allow children to use your device Your device is not a toy. Do not allow children to play with it as they could hurt themselves and others, damage the device, or make calls that increase your charges.

- Install mobile devices and equipment with caution · Ensure that any mobile devices or related equipment installed in
- your vehicle are securely mounted. Avoid placing your device and accessories near or in an air bag deployment area. Improperly installed wireless equipment can cause serious injury when air bags inflate rapidly

Allow only qualified personnel to service your device

Allowing unqualified personnel to service your device may result in damage to your device and will void your manufacturer's warranty Handle SIM cards or memory cards with care

- Do not remove a card while the device is transferring or accessing information, as this could result in loss of data and/or damage to the card or device. · Protect cards from strong shocks, static electricity, and electrical
- · Do not touch gold-coloured contacts or terminals with your fingers or metal objects. If dirty, wipe the card with a soft cloth

Ensure access to emergency services Emergency calls from your device may not be possible in some areas or circumstances. Before travelling in remote or undeveloped areas, plan an alternate method of contacting emergency services

Keep your personal and important data safe

- While using your device, be sure to back up important data. Samsung is not responsible for data loss. When disposing of your device, back up all data and then reset
- your device to prevent misuse of your personal in Do not distribute copyright-protected material

Do not distribute copyright-protected material that you have recorded to others without the permission of the content owners. Doing this may violate copyright laws. The manufacturer is not liable for any legal issues caused by the user's illegal use of copyrighted mate

Specific Absorption Rate (SAR) certification information

Your device conforms to European Union (EU) standards that limit human exposure to radio frequency (RF) energy emitted by radio and telecommunications equipment. These standards prevent the sale of mobile devices that exceed a maximum exposure level (known as the Specific Absorption Rate, or SAR) of 2.0 W/kg.

0.840 W/kg. In normal use, the actual SAR is likely to be much lower, as the device has been designed to emit only the RF energy necessary to transmit a signal to the nearest base station. By automatically emitting lower levels when possible, your device reduces your overall exposure to RF energy. For more information about the SAR and related EU standards, visit

During testing, the maximum SAR recorded for this model was

Correct disposal of this product

top of the screen:

Install the SIM or USIM card and battery

1. Remove the back cover and insert the SIM or USIM card.

2. Insert the battery and replace the back cover.

Charge the battery

2. When charging is finished, unplug the travel adapter

While the phone is charging, the touch screen may not function due to an unstable power supply. If this happens, unplug the travel adapter from the phone.

- Do not remove the battery before removing the travel adapter. Doing this may cause damage to the phone.
- To save energy, unplug the travel adapter when not in use. The travel adapter does not have a power switch so you must unplug the travel adapter from the outlet to interrupt the power supply. The travel adapter should remain close to the socket when in use.

Insert a memory card

Your phone accepts microSD™ or microSDHC™ memory cards up to 16 GB (depending on memory card manufacturer and type).

- · Formatting the memory card on a PC may cause incompatibility with your phone. Format the memory card only on the phone.
- · Frequent writing and erasing of data will shorten the lifespan of memory cards.
- 1. Open the cover to the memory card slot on the side of the

phone or other equipment

If the battery is removed for more than a few minutes, the time and date will be reset.

To turn your phone off, repeat step 1 above

Use the touch screen

Learn basic actions to use the touch screen.

To avoid scratching the touch screen, do not use sharp

- For the optimal use of the touch screen, remove the protection film before using your phone. Your touch screen has a layer that detects small
- electrical charges emitted by the human body. For best performance, tap the touch screen with your fingertip. The touch screen will not react to touches of sharp tools, such as a stylus or pen.
- · Tap: Touch once with your finger to select or launch a menu, option, or application
- Tap and hold: Tap and hold your finger on an item to open a pop-up option list.
- Drag: Tap and drag your finger up, down, left, or right to move to items on lists.
- Drag and drop: Tap and hold your finger on an item, and then drag your finger to move the item

Access menus

To access your phone's menus,

- 1. In Idle mode, select Menu to access Menu mode.
- 2. Scroll left or right to a main menu screen

3. Select a menu or application.

4. Press the Back key to move up one level; Press [to return to Idle mode.

- · When you access a menu requiring the PIN2, you must enter the PIN2 supplied with the SIM or USIM card. For details, contact your service provider.
 - Samsung is not responsible for any loss of passwords or private information or other damages caused by illegal software.

Make a call

- 1. In Idle mode, select Keypad and enter an area code and a phone number
- 2. Press [] to dial the number. For a video call, select
- 3. To end the call, press [].

Answer a call

- 1. When a call comes in, press [--].
- 2. For a video call, select Show me to caller to see you
- 3. To end the call, press [7].

Adjust the volume

To adjust the volume of the ringtone

- 1. In Menu mode, select Settings → Sound profiles
- 2. Select the profile you are using

adjust the volume of the ringtone

If you are using the silent profile, you are not allowed to

- 3. Select Volume \rightarrow Call alert.
- To adjust the volume of voice during a call While a call is in progress, press the Volume key to adjust

4. Drag the slider to adjust the volume level and select

In noisy environments, you may have difficulty hearing the calls while using the speakerphone feature. For better audio performance, use the normal phone mode.

Change your ringtone

- 1. In Menu mode, select Settings → Sound profiles
- 2. Select the profile you are using.

If you are using the silent profile, you are not allowed to change the ringtone

3. Select Voice call ringtone or Video call ringtone

4. Select a ringtone and select Set.

To switch to another profile, select it from the list.

Call a recently dialled number

- 1. In Idle mode, press [-] to display a list of recent
- 2. Scroll left or right to a call type
- 3. Select the number you want and press [-] to dial.

Use widgets

Learn to use widgets on the idle screen.

- To delete characters one by one, select <
 To delete words quickly, tap and hold .
- To enter punctuation marks, select 1 repeatedly
- · Select to change case

Add a new contact

The memory location to save new contacts may be preset depending on your service provider. To change the memory location, in Menu mode, select Contacts → Settings → Save new contacts to → a memory location

- 1. In Idle mode, select Keypad and enter a phone number.
- 2. Select → Add to Contacts → a memory location (if necessary) → Create contact
- 3. Select a number type (if necessary).
- 4. Enter contact information.
- 5. Select Save to add the contact to memory.

Send and view messages

To send a text or multimedia message

- 1. In Menu mode, select $Messages \rightarrow Create message$ Select the recipient field → Enter manually
- 3. Enter a recipient number and select Done. 4. Select the text input field
- 5. Enter your message text and select Done. For sending as a text message, skip to step 7.
- For attaching multimedia, continue with step 6. 6. Select Add media and add an item.
- 7. Select **Send** to send the message

To view text or multimedia messages 1. In Menu mode, select Messages → Inbox

2. Select a text or multimedia message

Make fake calls

You can simulate an incoming call when you want to get out of meetings or unwanted conversations.

To activate the fake call feature

In Menu mode, select Settings \rightarrow Call \rightarrow Fake call \rightarrow Fake call hot key

To make a fake call

In Idle mode, press and hold the Volume key down.

Activate the mobile tracker 2.0

When someone inserts a new SIM or USIM card in your phone, the mobile tracker feature will automatically send the contact number to specified recipients to help you locate and recover your phone. To activate the mobile tracker

- 1. In Menu mode, select $\textbf{Settings} \rightarrow \textbf{Security} \rightarrow \textbf{Mobile}$
- 2. Enter your password and select OK.

The first time you access Mobile tracker 2.0, you will be prompted to create and confirm a password

3. Select Settings

4. Enter your mobile tracker password and select **OK**

- 5. Select Mobile tracker to turn on the mobile tracker
- code (with +) in the recipient list. Skip to step 9.
- 8. Select contacts → Add
- 9. When you are finished setting the recipients, select Save to save the recipients.
- 10. Select the sender input field
- 11. Enter a sender's name and select Done
- · By setting the options in Access remote phone, you can delete data on your lost phone or receive calls to

Change Mobile tracker 2.0 password.

· To change the password for the mobile tracker, select

- to create and confirm a password
- 6. Select Recipients → Add recipients → Contacts. You can also enter phone numbers including a country
- 7. Select Multiple

- The first time you access Settings, you will be prompted

- 12 Select Options → Save → Accept
 - the phone.

Activate and send an SOS message

In an emergency, you can send SOS messages to your family or friends for help.

To activate the SOS message

- 1. In Menu mode, select Messages → Settings → SOS $messages \rightarrow Sending\ options$
- 2. Select **Sending SOS** to activate the SOS messaging 3. Select Recipients → Add recipients → Contacts.
- code (with +) in the recipient list. Skip to step 6. 4. Select Multiple
- 5. Select contacts → Add.
- 6. When you are finished setting the recipients, select Save to save the recipients

You can also enter phone numbers including a country

- 7. Select Repeats, set the number of times to repeat the SOS message, and select Save.
- 8. Press the Back key → Yes

To send an SOS message

- 1. With the touch screen and the keys locked, press the Volume key four times to send an SOS message to preset numbers.
- 2. To exit SOS mode, press and hold [].

Use the camera To capture photos

- 1. In Menu mode, select Camera to turn on the camera
- 2. Rotate the phone anti-clockwise to landscape view.
- 3. Aim the lens at the subject and make any adjustments. 4. Select of to take a photo. The photo is saved automatically

To record videos

In Menu mode, select My files \rightarrow Images \rightarrow a photo file

1. In Menu mode, select Camera to turn on the camera

2. Rotate the phone anti-clockwise to landscape view. 3. Select o to switch to Recording mode.

- 4. Aim the lens at the subject and make any adjustments
- 5. Select of to start recording. 6. Select • to stop recording. The video is saved
- automatically

In Menu mode, select My files \rightarrow Videos \rightarrow a video file.
